Emergency response and rescue in a unique environment

ALICANTE

WHAT IS RESCUE-OPS®?

RESCUE-OPS® is an event that aims to bring together police, military and emergency service officers and the companies who develop the high-quality products that said professionals use in the field to achieve better outcomes.

Over three days, in the wonderful city of Alicante, all participants in the event will be able to see the benefits of using the latest innovations in police, military or rescue services by attending our RESCUE-OPS WORKSHOPS® held in two exhibition zones: land (at the Fire Prevention, Extinguishing and Rescue Services of Alicante facilities) and sea (at Alicante Port).

WHAT ARE THE RESCUE-OPS WORKSHOPS®?

Our RESCUE-OPS WORKSHOPS® mirror real-life scenarios, in which participants can try out the products on display from different companies.

The RESCUE-OPS WORKSHOPS® are designed in collaboration with each company in order to show off specific qualities of the products they want to showcase at the event, so participants can test their operational performance and see the benefits in using them in the field.

To guarantee that the workshops are run correctly, various representatives from each company will be in charge of organising and coordinating them every time they are held, for the duration of the event. Every company can count on the first-hand support of the RESCUE-OPS® team.

Both the duration of the workshop and the number of times it can run will depend on the complexity of the product being showcased.

There will be rotating work groups for each workshop, allowing guests to repeat the workshop more than once if and when time permits.

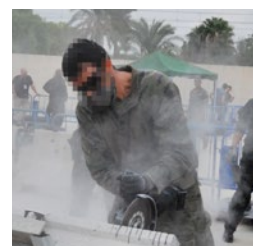

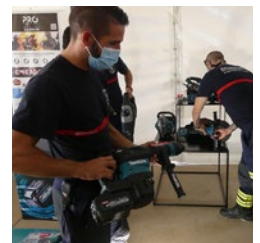

To make the most of each company's time, only guests with a direct working relationship with the object being showcased will be able to participate in the corresponding RESCUE-OPS WORKSHOPS®.

WHO TAKES PART IN THE RESCUE-OPS WORKSHOPS®?

The participants in the RESCUE-OPS WORKSHOPS® are professionals and purchasing agents from various active units of the National Police Force, the Guardia Civil, the Catalan Autonomous Police Force (Mossos d'Esquadra), the Basque Autonomous Police Force (Ertzaintza), the Navarra Regional Police Force, the Customs Surveillance Service, the Madrid Municipal Police Force, the Guardia Urbana de Barcelona, the Spanish Army, Spanish Air Force, the Spanish Navy, the Military Emergencies Unit (UME), the Maritime Safety and Rescue Society, and also municipal, regional and autonomous community Fire Brigade Corps.

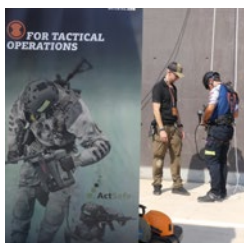

Several police, military and emergency service units from abroad will be invited to the event.

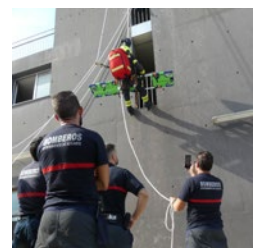

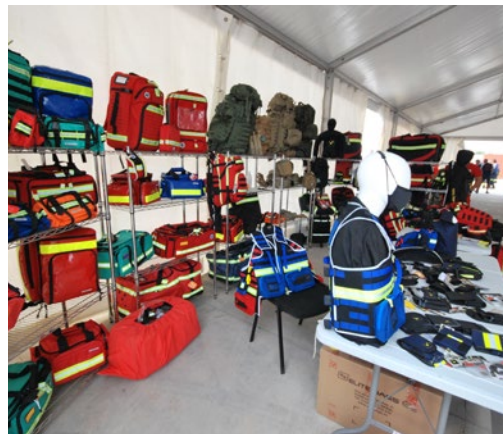

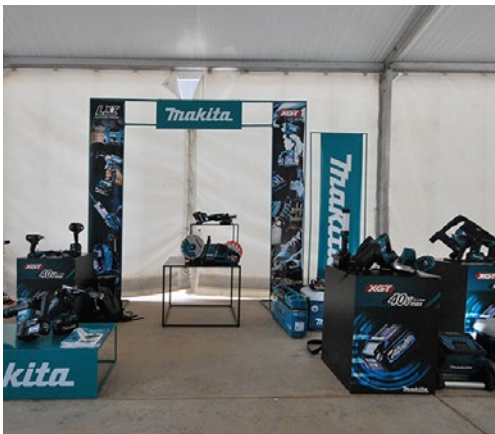

** Participation in RESCUE-OPS® is through special invite from the organisation.*

A VERY POWERFUL EVENT

- Police, military and emergency service units that may use your product can test it out.
- Huge savings in both costs and time while introducing your product to the Spanish market, among others.
- Purchasing agents from participating units will be in attendance.
- Direct contact with end-users. Immediate feedback about the workshop.
- Create direct links and relationship with participating professionals and purchasing agents.
- Extremely professional atmosphere. 100% efficient use of time.
- Covered outside exhibition area.
